Dear Keith:

It was great to meet you recently and learn how you are working to bring to light the tremendous sacrifices our Vietnam Veterans gave for the freedoms we enjoy today.

I believe that your film documentary will go a long way in educating the general public so that, "Never again will one generation of Veterans abandon another".

I manage the car donation program nationwide for the Vietnam Veterans of America. This program gives people the opportunity to help support veterans by donating their unused vehicle in exchange for a tax deduction.

I am so excited about your project and how it will help our veterans that I am attaching a check for \$7,500.00 to help with your worthy endeavors.

We look forward to working with you in the future.

Respectfully,

Rick Frazier
